Age: 35
Sex: Male
Marital Status: Married
Status: In employed
Experience: 10-15 years

Summary

Highly skilled and experienced software automation tester with 10 years of experience in the field, seeking new opportunities to utilize my expertise and contribute to the success of a dynamic organization. Proven track record of ensuring the quality and efficiency of software products through robust automation testing methodologies.

Experience

Sr. QA Automation Engineer , Socialloft, Vietnam

Sep 2021 - 0000

Collaborated with development teams to identify test scenarios, create test plans, execute tests, and report defects. Manual testing of mobile native apps on different mobile platforms such as Android mobile devices to track user interface performance and bug fixes to ensure stability of releases. Used JIRA to store all testing results, metrics, implemented test plan documents, created test cases, defect tracking and reporting. Designed and implemented automation frameworks using industry-standard tools such as Selenium WebDriver and Cucumber. Developed and executed automated test scripts to validate software functionality, performance, and security. Conducted regular regression testing to ensure the stability of software applications. Participated in agile development cycles, attending daily stand-up meetings and providing feedback on the product backlog. Actively involved in the continuous integration and delivery processes to enhance software quality and speed up the release cycle. Mentored junior team members in automation testing best practices and tools.

QA Automation Engineer, Sallie Mae , United States

Mar 2020 - Aug 2021

Led the development and execution of comprehensive test plans for multiple projects. Utilized tools like Appium, TestNG, and Jenkins for mobile and web automation testing. Created and maintained test documentation, including test cases, test scripts, and defect reports. Developed automation scripts for API testing using tools like Postman and Rest Assured. Analyzed test results and provided accurate and timely reports to stakeholders. Collaborated with cross-functional teams to ensure the quality of software releases. Demonstrated strong problem-solving abilities and troubleshooting skills.

Quality Assurance Test Engineer, DIRECTV, California, USA

Oct 2017 - Feb 2020

Conducted end-to-end testing of web-based applications using Selenium WebDriver, Java, and TestNG. Created and executed complex SQL queries to validate the integrity and accuracy of data. Identified and reported software defects, working closely with developers during the debugging process. Coordinated with business analysts and project managers to understand project requirements and provide accurate testing estimates. Performed Regression testing after each build release of the application and updated the Scripts by executing the Regression suites built using Selenium and TestNG. Created Cucumber Feature Files comprising various Test Scenarios and Step Definitions for BDD Used Firebug for inspecting web pages and to locate Web Elements. Wrote CSS Selector and XPATH manually to work on dynamic Web Elements.

Education

Engineer Degree, UEI College, Computer System Technician

2019 - 2020

Degree Engineer Degree
Grade A

Bachelor Degree, The State Engineering University of Armenia, Computer Programming

2008 - 2013

Degree Bachelor Degree
Grade A

Language

Bengali
Proficiency Professional Working

English
Proficiency Native or Bilingual

Skills

selenium, Java, API Testing, postman, SQL
